

**I wear an  
AK Prosthesis**  
( Above Knee )

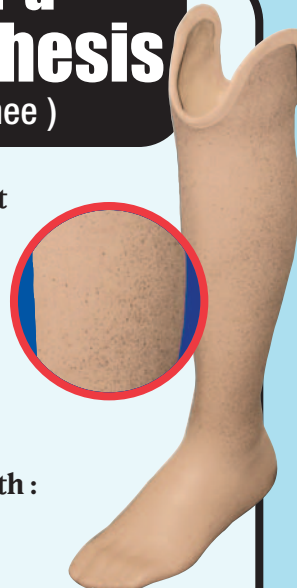

1. My prosthesis without a foam cover will wear and tear much faster.
2. When I use a foam cover to protect my prosthesis, it must either be finished with :
  - a) a stocking that needs constant replacement (besides, real men don't wear stockings!).
  - b) a non-removable finish, but then anytime my prosthesis needs an adjustment or a repair (It's not a matter of if, it's a matter of when!) the refinishing is costly.
  - c) a removable skin - and there is none better or more everlasting than DAWSkin!
3. I can wear shorts to go golfing and both my legs look the same. I can even have natural looking hair on my DAWSkin.

## I wear an AK Prosthesis ( Above Knee )

1. Both my legs can really look the same (9 skin tones to match).
2. I can wear skirts or shorts and enjoy the bare skin look.
3. Pantihose look best over bare skin.
4. Both my feet can have matching toenails.
5. If my prosthesis is not finished with DAWSkin, whether I wear hose or not, a prosthetic stocking must go over the foam cover. That stocking snags and gets dirty quickly and must be replaced frequently.
6. I could use a non-removable finish, but then anytime my prosthesis needs an adjustment or a repair (It's not a matter of if, it's a matter of when!) the refinishing is costly.
